

# Hot-IoT 2016

## Introduction

The ***Internet of Things (IoT)*** is an ecosystem in which heterogeneous devices (i.e., Things) are connected to a network (i.e., the Internet) such that the participating devices can communicate and share data with each other. Providing powerful and flexible network connectivity among diverse devices, such an ecosystem has rapidly gained enormous popularity in both academia and industry. IoT, as an emerging ecosystem, is now facing a variety of challenges including scalability, management and security issues.

The IEEE ICNP workshop on Hot Topics in IoT (Hot-IoT), which will take place in **Singapore** on **November 11, 2016**, will bring together both industry and academia to present and discuss recent IoT efforts to address the challenges.

## Scope

- Network architecture for IoT
- New (or modified) protocol suggestions for IoT
- Security and privacy issues in IoT
- Network services for IoT
- Network management for IoT
- Performance analysis and measurement for IoT
- Testing, analysis, and verification for IoT
- Use cases and practical issues

## Important dates

- **Paper submission due: July 28, 2016 11:59 PM** (Pacific Time)
- **Notification of acceptance:** August 25, 2016 11:59 PM (Pacific Time)
- **Camera-ready submission due:** September 2, 2016 11:59 PM (Pacific Time)

## Organizers

### ► Program Co-Chairs

Seungwon Shin, KAIST, Korea  
Anduo Wang, Temple University, USA

### ► Technical Program Committees

Roberto Bifulco, NEC lab, Germany  
Yinzhi Cao, Lehigh University, USA  
Jaewoong Chung, ATTO Research, Korea  
Jason Croft, University of Illinois at Urbana-Champaign, USA  
Limin Jia, Carnegie Mellon University, USA  
Dong Jin, Illinois Institute of Technology, USA  
Hyoungshick Kim, Sungkyunkwan University, Korea  
Tim Nelson, Brown University, USA  
Oleg Sokolsky, University of Pennsylvania, USA  
Sooel Son, Google, USA  
Jie Wu, Temple University, USA  
Wenfei Wu, HP Labs, USA  
Zhaoyan Xu, Palo Alto Networks, USA  
Changhoon Yoon, KAIST, Korea  
Ying Zhang, HP Labs, USA
